Read the text and check true or false

Today I want to give you some travelling tips. My first piece of advice is to work hard on your research before you go if you want to make your trip enjoyable and rewarding. I plan my trips very carefully at least three month before I leave, reading about the places I'm going to visit on the Internet and in books. I had a very remarkable trip to Morocco. This city is an absolutely amazing place to visit and well worth adding to your itinerary. Try to stay near the old part of the city. There are many historical buildings and so much to see. The mosques in particular are very beautiful. Then I went to Turkey. It was well worth the trip if you like local crafts. After that I went to India. It is a fascinating country. If you are interested in wildlife, I recommend travelling in the remote areas of this country. You can see lots of amazing animals like colorful birds and poisonous spiders.

1. The writer suggests to plan your trip in advance.
2. You can find beautiful hand crafts in Morocco.
3. it's better to stay in new part of India.
4. There are many interesting places in old part of Morocco.
5. The mosques in Turkey are great.
6. India is great place to see wonderful animals.
